Lets Upgrade

AI for Business Leaders.

"From AI awareness to AI operator to AI system builder"

Best for Professionals • Marketing • Sales • Finance • Ops & Data • Human Resources (HR)
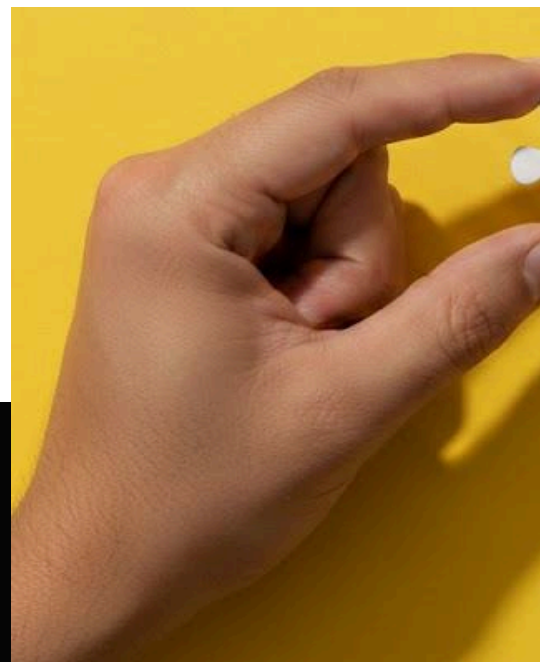

Why This Program Exists

Every role HR, Sales, Marketing, Finance, Operations is becoming an AI-augmented role.

But most professionals are stuck in:

- Tool confusion

- Random YouTube learning

- No idea how to use AI for real business problems

This program exists to turn you into someone who can:

- Translate business problems into AI use-cases

- Build AI-powered workflows

- Launch working AI systems inside teams

#FOR NON-TECH PROFESSIONAL

What You Become in
12 Weeks

Before	After
• You "use ChatGPT"	• You design AI workflows
• You work manually	• You automate your work
• You depend on IT teams	• You build AI systems yourself
• You react to change	• You lead transformation inside your company

You don't just learn AI

"You become the person who deploys AI for business."

#FOR NON-TECH PROFESSIONAL

The 5 Outcomes You Will Achieve

1 **Understand AI end-to-end**
How models, data, prompts, agents and workflows actually work.

2 **Work with data using AI**
Analyze, visualize, and extract decisions from messy business data.

3 **Specialize in Your Domain**
Marketing, Sales, HR, Finance, Operations or Data — AI built for your role.

4 **Create AI for Growth**
Use AI to generate
- Content
- Videos
- Presentations
- Voice, music, ads & campaigns

5 **Build & Automate with AI Agents**
Create AI bots that:
- Send emails
- Generate reports
- Update dashboards
- Run workflows

What You Will Actually **Build**

During the 12 weeks, you will create:

- AI dashboards for decisions

- AI content engines

- AI automations for your role

- AI agents that work for you

- One complete AI system you can show to employers or your company

"One complete AI system you can show to employers or your company"

How the **12-Week** Journey Works

The program runs in 3 phases:

- **Phase 1 — Foundations**

  How models, data, prompts, agents and workflows actually work.

- **Phase 2 — Build**

  Use AI for data, content, automation and workflows.

- **Phase 3 — Specialize & Launch**

  Apply AI inside your domain and prepare for Demo Day.

Every week:

| Live classes | Industry workshops |
| Mentoring & feedback | Hands-on builds |
